

Expediting your Apple Business Manager Registration

Apple's world-class mobile deployment workflow provides organizations with an exceptional method to deliver iPhone and iPad to their end users at the lowest possible cost by eliminating the need for IT to ever touch the device. To take advantage of Apple's workflow, organizations face the necessary task of registering into Apple's free deployment programs. This is where we can help.

Accelerate your time to Full Mobility Management

Working with your IT team and alongside your existing mobile vendor, MobileSurety provides an industry unique service that fast tracks all the enrolment components on behalf of your organization.

Acting for you, our provisioning team will enrol your company into all the necessary Apple programs and services, delivering a production-ready iOS deployment solution complete with a 30-day free trial of Cisco Meraki Systems Manager.

The Foundation to Mobility Success

Once the enrolment registration process is completed, your mobile assets and applications can easily be added to your MDM platform and delivered to your users with zero touch efficiency.

If your organization needs an overall Mobile Device Management solution strategy, further policy deployment guidance, or even unsure which MDM to use, MobileSurety is always available to assist, freeing you to focus on your business.

Service Highlights

- Program enrolment available for both iOS and MacOS deployments.
- Companies of all sizes can take advantage of the Foundation Service.
- MDM free trial can be used as Mobility Proof of Concept (POC).
- Save valuable IT resources time.
- Best practice deliverables.

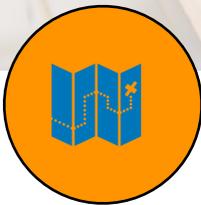

MobileSurety Apple Foundation Service Deliverables

Enrolling your organization into Apple Business Manager programs and services:

DEP – Device Enrolment Program

- **A fully tested production-ready iOS deployment system.**
- **30-days of technical support on all Foundation deliverables.**
- **Complete documentation with all IDs, account numbers and passwords.**

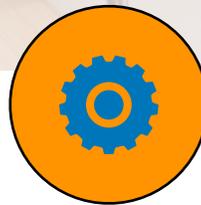

How we work

Let's get organized

Step 1

Schedule a call and MobileSurety will explain the DEP enrolment workflow and its prerequisites, then collect the required information.

We do the work

Step 2

A dedicated iOS specialist will initiate the enrolment. Assigned to you, they provide a single point of contact for all communications and support.

Your package has arrived

Step 3

MobileSurety will return a complete enrolment package, including program details, account numbers, passwords and trial MDM

Why Choose Us

We only do iOS. Our "iOS Only" services are unique in the industry. Apple provides the best mobile tools for business. Reliable, secure and compatible by design. The MobileSurety team has recognized that iPhone and iPad based solutions deliver results and is 100% committed to the iOS platform. Organizations that recognize the power of iOS will find in MobileSurety a partner with the expertise and scale to deliver world class mobile solutions.

About Us

We're on a mission to help enterprises maximize their iOS mobility investments. We are passionate about what we do and honestly believe in creating long term personal customer partnerships while delivering exceptional value. MobileSurety was founded by industry veterans with the expertise and experience to deliver cost effective mobility solutions.
